## MOBILE CONCRETE PLANT

Compact design and fully automatic mobile concrete plant is manufactured upto 20 cu.mtr. / hr. capacity. Ease of erection and operation is the key feature of this plant.

Plant under production

### Technical Specification

Model	MCP-20	Water Tank	In built
Output Capacity	20 m <sup>3</sup> /hr	Water Pump	01 No.
Type of Mixer	Pan	Additive Tank	In built
Mixer Motor	30 HP	Additive Pump	01 No.
Sand/Aggregate Hopper	04 Nos.	Controls	Fully Automatic
Hopper Capacity (Each)	2.5 m <sup>3</sup>	Power Requirement	70 HP
No. of Wheels	04/06 Nos.	Weight (Approx)	11 Tones

Due to SPEEDCRAFTS Policy of continuous improvement / development, the technical data mentioned in this entire sheet is not binding and subject to change without notice.

### Features

- ▶ Compact design
- ▶ Cost efficient
- ▶ Low maintenance
- ▶ Only one trailer needed for transportation
- ▶ Components used are of top quality
- ▶ Global presence with prompt product support
- ▶ Manufacturing is done with advance, internationally recognised techniques
